

Teaching as Inquiry

Problem:

What is it I want to change or improve?
What outcome do I want?

Evidence:

Qualitative/quantitative? Data? Student surveys?

What do I already know?**What do I need to find out?**

Readings/people resources.

Initiative

What are some strategies or initiatives I could implement?

Timeline:

How and when will I implement these?

Evidence:

How will I measure change?
Qualitative/quantitative? Data? Surveys?

Reflection:

Did my initiative make any difference? Why/why not?
Is this initiative worth sharing?
